Diablo 2 lord of destruction update

This is the patch for the game PC Diablo 2 Lord of Destruction. Patch 1.12 Downloadable Installer Support If all the required Diablo 2 .MPQ files are installed on your hard drive, the game will no longer require the CD to play. For users who originally run a 'Full Installation' and want to run without the CD, all .MPQ files must be copied from Diablo 2 CDs to Diablo 2. Most users will only have to copy D2Music.mpq from the Diablo 2 Play CD, D2xMusic.mpq and D2xVideo from the Lord of Destruction CD. Mac users will need to copy these music files and rename them respectively to 'Diablo II Music' and 'Diablo II Expansion Music'. Anyone who has not performed a 'Full Installation' will need to reinstall from CD again to finally play without the CD. In this case, a 'Full Installation' is required, followed by a copy of the above mentioned step file. Bug FixesFixed an incompatibility between Rosetta and OpenGL mode on Intel Mac.
